1. [redacted] LIAISON Ben Marshall, Senate Select Committee on Intelligence staff, called to say he had just talked with [redacted] Office of Security, to arrange for Fred Ward, the Committee's reporter, to bring audio-recording equipment into the Headquarters building on 12 August. Ward will be recording Don Sanders', also of the Committee staff, "formal interview" of [redacted] This will probably be the first of several such interviews relating to the Committee's inquiry relating into Agency activities [redacted] I checked later in the day with the Office of Security and was informed everything was in order for Ward's visit.
